**6.5 Starting positions and procedures:**

**(1) GT1 and GT2**

(a) **Race One:** Shall be a Standing Start reverse split grid based on the fastest lap in Qualifying, fastest car to the rear. The time intervals between each split, as well as the determination of the number of splits, will both be subject to the discretion of the Series Coordinator.

(b) **Race Two:** Shall be a Handicap Race start based on the fastest lap in Qualifying and Race One, fastest car to the rear

(c) **Race Three:** Standing Start with starting positions determined by the fastest lap time from either Qualifying, Race One or Race Two times, fastest car to the front.

The GT2 class shall start 15 seconds ahead of the GT1 class, with an empty grid row between the two classes. The GT1 class will start by flag drop.

**(2) GT3 and GT4:**

(a) **Race One:** Shall be a Standing Start reverse split grid based on the fastest lap in Qualifying, fastest car to the rear. The time intervals between each split, as well as the determination of the number of splits, will both be subject to the discretion of the Series Coordinator.

(b) **Race Two:** Shall be a Handicap Race start based on the fastest lap in Qualifying and Race One, fastest car to the rear.

(c) **Race Three:** Standing Start with starting positions determined by the fastest lap time from either Qualifying, Race One or Race Two times, fastest car to the front.

**6.6** Where a competitor has exceeded their Class eligibility prior to Race One or Race Two, their handicap time for each Race will be set at the class eligibility minimum break out time (refer Article 2.3.1).

**(a)** Any such nomination must be notified to the Series Coordinator by completing the lap time nomination form included in Appendix Two to these Articles at least ninety (90) minutes prior to the race start. **(b)** The nominated time(s) will only apply to the race directly following the nomination.

**(c)** No competitor may nominate a slower time than previously achieved during that same Round.

**6.6.2** If the starting grid for a handicap race is determined by lap times based on a Qualifying session or Race that had been declared wet, to allow for improving circuit conditions the Series Coordinator may choose to review the break-out penalties post-race.

This review involves assessing the majority of drivers' lap times by comparing their fastest Race lap time, (excluding the fastest and slowest drivers) with their lap times used to determine the Handicap. If the majority demonstrates improvement, the Series Coordinator will apply the average improvement to each driver's handicap time before verifying if any driver has exceeded their handicap allowance.

**6.7** The Series Coordinator may, in conjunction with the Clerk of the Course, adjust the starting position of a competitor in either Race One and/or Race Two. Any such adjustment shall be published as soon as practicable after the previous Race, and in any case no later than thirty(30) minutes prior to the start of the next Race.

- (a) Class points, based on their overall finishing positions within each Class, in each Qualifying session, at each Round of the Series (subject to the penalty in Article 8.2), and

**9.3 Dual Driver points:** As dual drivers are deemed to form a single entry, points awarded shall be combined from both drivers. Should one of the dual drivers wish to enter another car separately, and partway through the series, all earlier points for that driver shall be forfeited unless the committee in its discretion deems otherwise.

**9.4** A driver may change cars prior to any Round in the Series, however any change of car must be notified to the Series Coordinator prior to the qualifying session of that Round, where previous points will be retained.

- 9.5 If for any reason, a Driver needs to change their vehicle part way through a Round, points shall only be awarded against the vehicle they had originally qualified in.
- 9.6 In the instance of a class having received **three or less** entries at a round, that class will then be combined with the other class within the grid, for classification of overall series points. The other class will not be affected unless their entries are also less than four. If the class is the slower of the two classes (ie, GT2 or GT4), then only the Handicap Race points will be combined to avoid being unfairly penalised in Qualifying and scratch Races.
- 9.7 **GT3/GT4 and GT2 Class:** Those competitors moving class from GT4 to GT3, GT3 to GT2, or GT2 to GT1 will **forfeit** all class points from the lower class and be allocated last place class points for the class they are moving to, for each of the Races in all Rounds the competitor has completed in the previous class. Class Points shall not be transferred from the lower class to the higher class in any case.
